

The 2500 PRO Tracked Carrier from ACONDA provides an exceptional solution for transporting heavy loads through confined spaces and over rough terrain.

The 2500 PRO Tracked carrier delivers powerful performance, combining strong load capacity with excellent manoeuvrability, and is the king of run-time with its huge battery capacity, which can be extended even further. This makes the 2500 PRO Tracked carrier the ideal choice for moving heavy goods over long distances for repetitive tasks.

All PRO models are designed to be as low as possible for excellent stability, and come with enhanced features including gradient monitoring, remote information feedback, and a smart auxiliary output, allowing control of powered accessories and increasing safety in critical situations.
