

The 750 PRO Tracked Carrier from ACONDA is incredibly compact, lightweight, and highly manoeuvrable, making it perfect for accessing even the most confined and challenging locations.

Despite its narrow width of just 600mm, the 750 PRO Tracked carrier offers an impressive maximum capacity of 750kg, providing exceptional strength for a variety of tasks. In addition to its compact size and impressive load capacity, the 750 PRO Tracked carrier comes equipped with all the advanced features typically found in larger models, ensuring it delivers the same level of performance and versatility in a smaller package.

All PRO models are designed to be as low as possible for excellent stability, and come with enhanced features including gradient monitoring, remote information feedback, and a smart auxiliary output, allowing control of powered accessories and increasing safety in critical situations.
