REAL ALL-TERRAIN

Maximum mobility on the construction site.

ADVANTAGES

Full Power Boom

- 16 t load capacity
- Up to 24 m boom length
- Automatically optimal: always the best load capacity for each boom length
- Numerous equipment options
- Perfect for narrow construction sites

Multicab

- 4.30 m viewing height: improved safety levels when lifting, moving and setting down loads
- Panoramic view with all-round glazing and a large skylight
- Improved ergonomics
- Intuitive control system

Telescoping crawler undercarriage

- Pick and Carry with maximum load
- Excellent maneuverability
- Small turning radius
- Masters gradients up to 20° and inclines of up to 4°

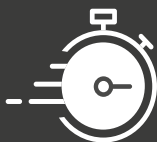

EASY TO TRANSPORT

Economical

With a transport width of just 2.53 m, the 613 E fits easily on any standard low-loader. This means a transport license is not required and significantly reduces the costs involved.

Quick

Once it reaches the construction site, the machine is ready to use as soon as it has been unloaded.

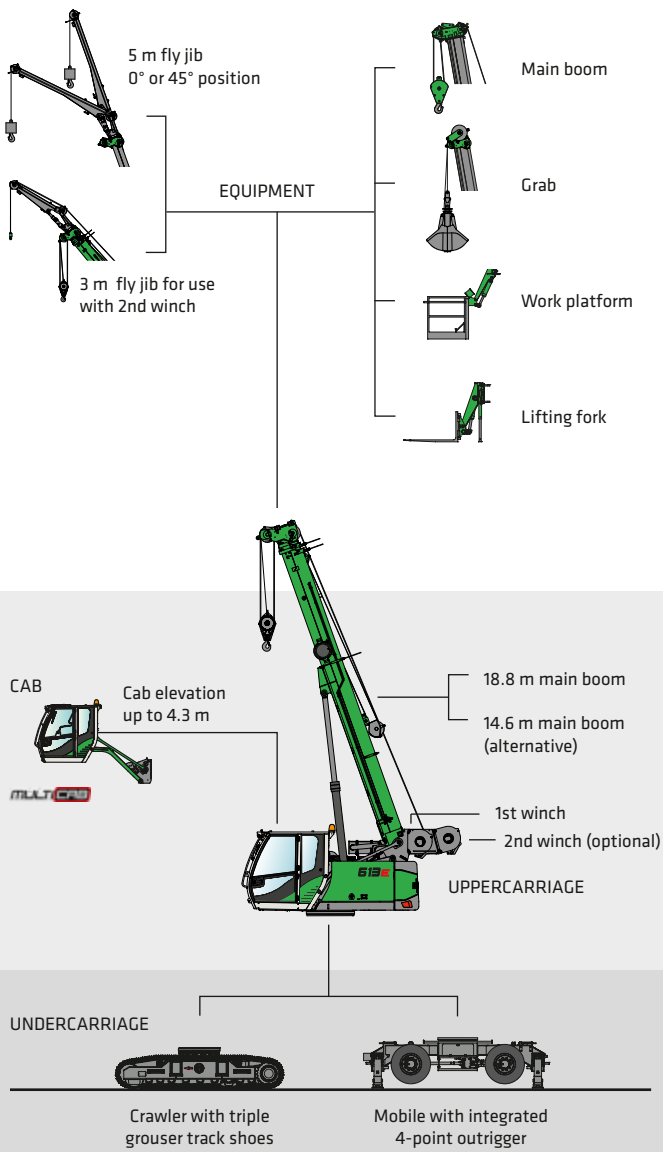

< 25 t*

Easy

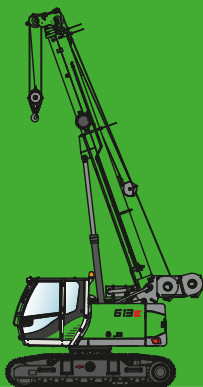

Thanks to its low weight of less than 25 t, the machine can be transported in its fully assembled mode. Even entering of downtown sites is hassle-free.

A MODULAR DESIGN.

NUMEROUS APPLICATIONS.
