GW 1125 – The Beast

20
YEARS

The Beast inside you!

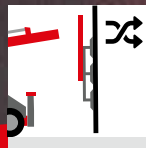

Vacuum cross
The vacuum cross is removable and can optionally be used individually as a vacuum cup with load hook with a quick-fit tilting bracket.

Increased stability
Outriggers ensuring a higher load capacities with a compact design.

Anti-fall protection
Through the use of laser technology. The Glassworker stops automatically if there is a risk of falling off.

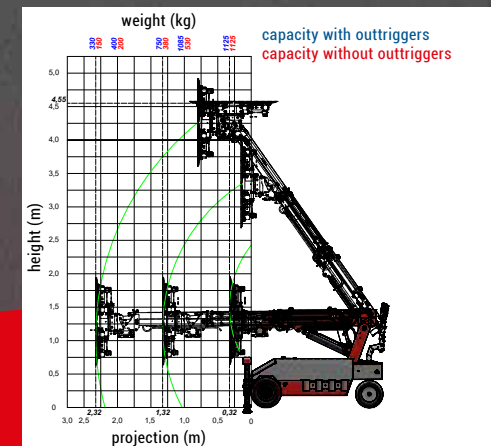

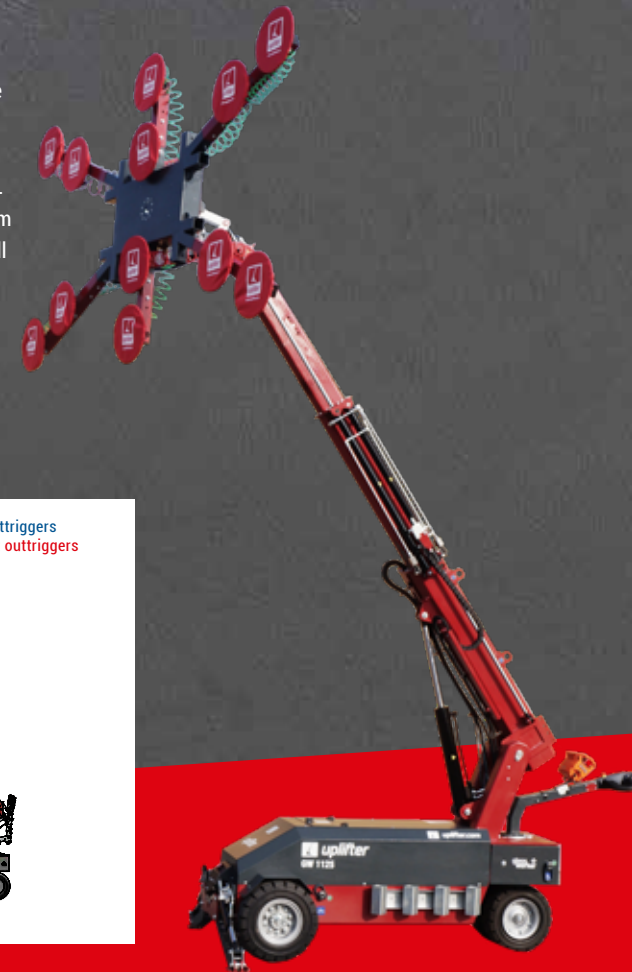

Quick-change
The vacuum cross can be dismantled without tools.
